The battery storage arm of Canadian Solar expects to make between 7GWh and 9GWh of shipments this year, with the final figure dependent on trade policy developments.

Renewable energy generator and retailer Flow Power has achieved financial close on a 100MW/223MWh battery storage project in Victoria, Australia.

Canadian Solar will set up a BESS and cell plant in Kentucky, after the site was vacated by nickel-hydrogen battery firm EnerVenue.

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy ...

Lithium-ion battery storage system integrator Fluence and independent power producer (IPP) Invenenergy will be partnering on the 475MW solar and 1,900MWh energy ...

The NSW Independent Planning Commission has approved Ark Energy's 3,148MWh Richmond Valley solar-plus-storage project in Australia.

The renewable energy-adjacent battery storage sector in India rolls on, with new procurement and regulatory moves from SECI and CEA.

US Senate bill could retain tax credits for energy storage even if solar PV, wind and electric vehicle (EV) incentives face cuts.

Energy and infrastructure investor Glenfarne Group has bought a portfolio of solar PV and co-located BESS projects in Chile from Greece-headquartered firm Metlen Energy & Metals.

Governor of New Jersey, US, Phil Murphy, has signed legislation to reach 2,000MW of energy storage capacity by 2030 and nearly double the state's clean energy ...

Top news on solar energy storage facilities and solar batteries. New battery manufacturing plants, major battery suppliers, advanced solar-plus ...
