Are solar panels sold separately?

\*Solar panels are not sold separately. Grid tie inverters convert DC to AC power - which is the type of electricity used in homes. They also provide net metering capability. Batteries can store excess energy when rates are low and use it during peak hours, optimizing cost savings.

How many companies make solar panels?

Looking at the broader supply chain for solar components, there are 52 companies that manufacture those products in the U.S., according to the DOE. These components include inverters, controllers, racking systems, and more. Another 12 U.S. outfits can recycle old solar equipment.

Where can I buy solar panels?
