SNX 70 Plus is a high-performance, triple-silver solar control glass offering an ideal balance of natural light and solar energy control.

Solar Plus marks a significant advancement in solar control and energy efficiency. Noteworthy among its features is the glass series" ...

With a solar heat gain coefficient of 0.24 and 60% visible light transmission\*, SNX 60+ glass delivers thermal performance without sacrificing natural light - for bright, comfortable interiors ...

The full range of Guardian SunGuard Solar Plus glass offers a high colour rendering index achieved by coating on a clear substrate. The light passing through the glass is natural ...

It allows up to 70% of visible light to pass through while directing the Infrared and Ultraviolet light into solar cells embedded in the window frames! Our CLEAR Solar Photovoltaic Window Glass ...

Thanks to its low exterior light reflectance, Pilkington Solar-E(TM) Plus can be used for modern glass facades where high reflectance is prohibited or undesirable. Where a safety glass is ...

Solar Plus marks a significant advancement in solar control and energy efficiency. Noteworthy among its features is the glass series" remarkable ability to seamlessly balance ...

Guardian®; SunGuard®; Solar Plus Glass Series outperforms other conventional solar control monolithic glasses in its category. Its best-in-class solar protection and thermal control let you ...

Thanks to its low exterior light reflectance, Pilkington Solar-E(TM) Plus can be used for modern glass facades where high reflectance is prohibited or ...

Perfect for any new commercial building project or renovation, the new Pilkington Solar-E(TM) Plus glazing offers the same features and benefits and pyrolytic advantages as our classic low-e ...

SunGuard®; Solar Plus glass not only offers high solar protection and natural light transmission, but also very low emissivity and the ability to be applied monolithically.

Pilkington Solar-E(TM) and Pilkington Solar-E(TM) Plus are a range of solar control clear or body-tinted coated glass with medium light transmittance, low light reflectance, and low emissivity.
