With over 167,000 square feet of manufacturing space, our First Gigafactory is fully equipped to manufacture high quality cells, from mixing raw materials straight through to shipping the final ...

iM3NY offers one of the first US-manufactured cells based on technology developed in the United States. Our proprietary P-Series phosphate-based chemistry provides 10-20% better energy ...

CVE North America has taken a significant step towards promoting renewable energy by initiating construction on its first solar and ...

Electrovaya's first U.S. facility adds to its existing two Canadian facilities and will produce its proprietary high-performance lithium-ion cells and batteries.

iM3NY is a new lithium-ion battery gigafactory, and a critical link in driving the energy transition. It is North America's first lithium-ion battery factory that ...

iM3NY is a new lithium-ion battery gigafactory, and a critical link in driving the energy transition. It is North America's first lithium-ion battery factory that features innovative technology for ...

LG Energy Solution will build a new battery cell factory in the US with 43GWh annual manufacturing capacity, including 16GWh dedicated to the stationary energy storage ...

CVE North America has taken a significant step towards promoting renewable energy by initiating construction on its first solar and battery energy storage system (BESS) in ...

With the ability to accommodate multiple battery formats and chemistries -- from cylindrical to pouch to prismatic cells -- Battery-NY comes as both a critical and novel facility to fill gaps in ...

Governor Kathy Hochul today announced that the Port Authority of New York and New Jersey and the New York Power Authority began construction of New York State's largest ...
