How much does electricity cost in Uruguay?

The electricity price for businesses is UYU 5.160 kWh or USD 0.132. These retail prices were collected in March 2025 and include the cost of power, distribution and transmission, and all taxes and fees. Compare Uruguay with 150 other countries. Historical quarterly data, along with the latest update from September 2025 are available for download.

Did Uruguay build a power grid?

Uruguay did what most nations still call impossible: it built a power grid that runs almost entirely on renewables--at half the cost of fossil fuels. The physicist who led that transformation says the same playbook could work anywhere--if governments have the courage to change the rules.

Which technology has the most electricity generated in Uruguay in 2024?

The technology with the largest share of electricity generated in Uruguay in 2024 was Hydro at 7.18TWh, up from 3.43TWh in 2023. Investment in clean energy in Uruguay was around \$28.00M in 2024. Which segments of the power sector are open to private participation?

How will information technology affect the electricity grid in Uruguay?

The incorporation of new information technologies and the rise of electromobility will occur naturally in Uruguay, leading to a gradual but steady intensification of the electricity grid.

Overview History Electricity supply and demand Service quality Responsibilities in the electricity sector Notes External links The state-owned power company Usinas y Trasmisiones Eléctricas (UTE) formed in 1912. First efforts of rural electrification already started in the 1930s. In 1932, the José Batlle y Ordóñez power station located at the Montevideo port was inaugurated, replacing an older power station on the same site. The first large hydroelectric power station was completed in 1945 in Rincón del Bonete. Before, ...

Historical Data and Forecast of Uruguay Power Transmission and Distribution Market Revenues & Volume By Transmission & Distribution Networks for the Period 2021 - 2029

These retail prices were collected in March 2024 and include the cost of power, distribution and transmission, and all taxes and fees. Compare Uruguay with 150 other countries.
