How much does greenhouse glazing cost?

Greenhouse glazing materials serve the dual purpose of insulation and protection. Your choices here can influence both the cost and the quality of insulation: Plastic/polyethylene - An affordable option at \$0.10 to \$0.50 per square foot. Corrugated fiberglass - Costs between \$1 to \$2 per square foot.

How much does it cost to build a greenhouse?

A greenhouse costs \$5 to \$30 per square foot, \$2,500 to \$15,000 on average for a 500-square-foot structure. Building a large commercial greenhouse costs \$2 to \$25 per square foot. The cost to build a greenhouse depends on the size, materials, and whether it's prefabricated or custom-built. Get free estimates from greenhouse builders near you.

How much does a greenhouse frame cost?

The frame of a greenhouse is the structure's support system. Typically, greenhouse frames are made from strong wood or steel that can stand up to the elements. Wood framing costs about \$1 per linear foot, while steel costs \$2.50 per linear foot.

How much does a geodesic greenhouse cost?

Geodesic or dome greenhouses are round structures with domed tops. They can be made from a variety of materials, including glass and plastic, and cost between \$10 and \$25 per square foot. While these types of greenhouses have a relatively small footprint, they can house many plants because of their tall shape.

Prefabricated kits fall at the lower end of the price range, while custom-built structures cost more. Simple hoop greenhouses cost the least and are easy to construct, but they also ...
