Why should Serbia invest in solar power plants?

Located throughout the country, these solar power plants will help Serbia improve energy security, avoid expensive energy imports, and achieve electricity independence at an affordable price. The modernization of the EPS and renewing Serbia's Energy Generation Portfolio will have a lasting impact on communities throughout Serbia.

How much power does Serbia have?

It currently has a total capacity of approximately 3490 megawatts(MW) of renewables,with 2342 MW in hydropower in 2019 according to the European Energy Community. Serbia announced plans to install new hydropower plants and two existing dams,and to rehabilitate a further 15 existing power plants totaling around 30 MW with EBRD financing.

Who owns the large-scale solar and battery energy storage project?

Delivering the utmost flexibility to the Serbian government,the Large-Scale Solar and Battery Energy Storage Project being developed by UGT Renewables will be owned and operated by Electric Power Industry of Serbia(EPS) once completed.

What factors drive the renewable trend in Serbia?

Factors driving the renewable trend in Serbia include EU accession-related requirements for Serbia to decrease thermal power generation and Serbia's commitments under the Energy Community Treaty and the Paris Agreement to reduce greenhouse gas emissions.

The main players who are establishing the foundation for Serbia's storage infrastructure are highlighted in this article, which ranks the top 10 energy storage companies ...

Let's cut to the chase: when you hear "Serbia energy storage power station", do you imagine giant Tesla Powerpacks humming in a field? Well, think bigger. Serbia's leap into ...

Turkish renewables company Fortis Energy announced plans to build a 110-MWp solar farm, coupled with 31.2 MWh of energy storage, in the northern Serbian municipality of Sid.

Turkey-based developer and IPP Fortis Energy has acquired a solar and battery energy storage system (BESS) project in Serbia. The company plans to begin construction at ...
