What happened to Thailand's Solar Exports in 2024?

Soon, Thailand's solar exports to the US soared. But, in June 2024, a two-year US tariff waiver on solar products from South-east Asia - introduced by then President Joe Biden to boost solar deployment in the country - came to an end.

Will Tariffs Hurt Thailand's solar industry?

on their products exported to the US. Analysts say the tariffs threaten to hurt Thailand's manufacturing sector and its workers, and could have a knock-on impact on solar roll-out in the country.

How has China impacted Thailand's solar industry?

Their tariff deliberations over the past year have rocked Thailand's solar industry. "There has been a broad suspension of operations among Chinese companies in South-east Asia, including Thailand, with many closures likely to be permanent," said Mr Zhu Linxiao, a research fellow at the Oxford Institute for Energy Studies.

Why is Thailand's solar industry being squeezed?

Large Chinese companies dominate Thailand's solar manufacturing industry, which produces solar cells and panels for export to the US market. To protect its home-grown solar sector from a rising tide of cheap Chinese imports, Thailand's industry is being squeezed. Swipe. Select. Stay informed. on their products exported to the US.
