What is a battery cabinet?

A battery cabinet houses and protects the batteries that supply stored energy to a UPS system. It ensures that backup power is readily available whenever primary power is interrupted. Battery cabinets can be installed indoors or outdoors and are designed to provide secure, organized, and scalable energy storage for continuous power delivery.

What is a lithium battery cabinet?

A lithium battery cabinet offers several advantages over traditional lead-acid designs, including higher energy density, longer lifespan, faster recharge times, and reduced maintenance requirements. Lithium UPS batteries can deliver more runtime in a smaller footprint, making them ideal for facilities where space and efficiency are priorities.

Who makes battery cabinets?

Global Power Supply offers battery cabinets from industry-leading manufacturers such as Toshiba and Narada, available in multiple configurations to match your specific operational needs. Because every facility's power requirements are unique, we can help tailor the number of cabinets, capacity, and layout to meet your space and runtime objectives.
