As a pioneer in wind energy, Nidec SSB Wind Systems already has decades of experience with electric pitch systems. With the support of Nidec, we ...

Pitch Control Cabinet with Enersys battery 20Nm pitch axis cabinet with BPPC that operates on 400VAC supply. Interfaces with turbine level Bachmann control.

As a pioneer in wind energy, Nidec SSB Wind Systems already has decades of experience with electric pitch systems. With the support of Nidec, we have significantly expanded our product ...

We support you with a variety of cooling systems and fanless designs for flexible integration into cabinets and rotating hubs. Our next-generation pitch controllers provide built-in electronic ...

Of course the pitch system then requires an uninterrupted power supply (UPS). This is accomplished with batteries or ultracapacitors. And because we never make compromises ...

This advanced battery pack offers reliable power management and ensures the continuous operation of wind turbine pitch systems, providing the necessary backup power for critical wind ...

LICAP Technologies has partnered with Windurance to develop an ultracapacitor retrofit solution to replace the existing battery-based energy storage and charger system in GE 30Nm & 20Nm ...

Supercapacitor is used as a backup power supply for the wind turbine pitch control system, improving the safety, reliability and maintenance free ...

Additionally, batteries in the pitch control system of wind turbines serve as backup energy storage devices, ensuring the system's ...

LiCAP's ultracapacitor based retrofit solution replaces the existing lead-acid battery back-up system for pitch control in GE 30Nm and 20Nm wind ...

LiCAP's ultracapacitor based retrofit solution replaces the existing lead-acid battery back-up system for pitch control in GE 30Nm and 20Nm wind turbines. Our solution is a drop-in ...

Our product portfolio includes major and minor components, consumables, complete turbines, and repair services, that will help you to keep your turbines running efficiently, sustainably, and ...
